They're All Out of Step

"Accentuate the positive"—that's what the song says, doesn't it?

"Eliminate the negative, latch on to the affirmative.

Well, of course, I'm a Catholic student, but you don't expect me to buy any Catholic magazines or newspapers, do you? And I don't have a negative approach either. It's just that I think we should be more broad-minded.

The Catholic Press? Sure, it's a good idea. But don't ask me to support it. I remember last year when that daily paper, the Sun Herald, came out. Being a loyal supporter, I bought a copy right away, but I didn't care much for it. Too young, I guess. Anyway, it wasn't the best paper I'd ever seen, so I don't think a Catholic daily

Some of the Catholic magazines are all right. Catholic Digest has some fair pictures occasionally, but I like Life, myself. Besides, I subscribed to a Catholic magazine once and when the subscription ran out, I was hounded to renew it, and I don't think that's the right

attitude for the Catholic press to take.

I had a letter the other day from a man trying to sell me a year's subscription to Commonweal. He said it was in poor financial straits. I wanted to help him out, but I don't really like magazines like Commonweal. They keep telling you the Catholic viewpoint on current affairs and such, and I figure there's not enough impartiality in their editorial policies. I'd rather read unbiased accounts of things, the kind you see published in the secular press.

So you see, I'm accentuating the positive. The Catholic Press is fine, as far as it goes. I'm not the least bit negative about it. But don't you think this business of Catholic Press month is just a com-

mercial stunt in order to capitalize on a good thing?

Fifteen years stitutional monarch had won for George to note how history will treat of the VI the admiration and respect of millions.

People everywhere felt a certain kindredship to the quiet man who had had kingship forced upon him by the abdication of his brother Edward. His shy unassuming attitude made an immediate appeal. To the English people he will be remembered as a symbol of tradition which served to strengthen and encourage them during the period when England lived from day to day under an ominous sky filled with barrage balloons and Nazi planes.

A KING'S FRUGALITY

In the economic crisis following World War II the king set an example to the nation by practicing frugality in his own household. George VI proved to the world, throughout his reign, that basically a royal family is just like any other family.

The world has come to know this family through such book as Edward Windsor's A King's Story and Marion Crawford's two books, Mother and Queen and The Little Princesses. People everywhere read these writings avidly. In many cases they doubtless expected to pick up a juicy morsel of royal gossip. But mainly readers just wanted to know "how the other side lived."

PUBLIC PROPERTY

They came away from these accounts with a deepened respect for people who faced problems much the same as their own. The royal family not only became the public property of the English but of the rest of the world. More than the royalty and Parliament stroked a thoughtful and fatherly chin over the young men Elizabeth dated before Prince Philip appeared on the scene. Her wedding preparations were discussed as though she were the girl next door. This same spirit of intimacy and neighborliness prompted people to write long

Clarkites Recall Valentines of Romantic Past

by Marie Petrone

Red hearts, white lace and chubby Cupids in a variety of poses dominated the Clarke scene yesterday, but they are gone now. Valentines of long ago have been put away, others discarded, but there are always a few that remain etched in the girls' memories.

For the majority of the girls, that "special" Valentine was one received from a grammar school swain.

Mary Schulteis, for instance, clearly remembers a Valentine she received in third grade. "It was in the shape of a bell," she says, "and it had some kind of spongy crepepaper inside. I got it at a school party from a boy in my class. I remember it especially because all the little girls liked that boy, but somehow I always got to be his part-

Elephants Never Forget?

A boy named Jimmy who sat next to Algie Nederhiser in the fifth grade sent her a big card with an elephant on it that Algie never forgot. Rita Nessinger was a sixth grader when she received a printed orchid addressed "to my sweetheart" containing "a very gushy verse." At the same time the boy who sat behind Ruth Dunbar stopped dipping her pigtails into his inkwell long enough to slip a greeting into one of her books.

Jean Spink and Catherine Boyle's eighth grade Romeos both went in for quantity. "Mine was the biggest in the class," Jean recalls, while Catherine's contained eight pages of original rhyme. She "can only remember the last words —amo te.'

Romance Begins at Four

Terry Wilde displayed the best memory when asked about the first Valentine she had ever received. "It was from the boy next door," says Terry. "We were both 4."

On the other hand, Mary Alice McCarville isn't sure when her first Valentine came, but she knows she kept it for years. "There was a little Dutch boy on it holding a heart for a little Dutch girl. It really had me thrilled."

Grade school boys who didn't sign their last names to their greetings used to make Joanne Joynt angry. Instead of remembering just one Valentine, Joanne can still see

"all the little girls looking mine over and trying to decide who had sent them all."

Connie Crahan got a mysterious card too. "I still have it," she says, "because I saved all of mine. But the one I like best is just a tiny heart-shaped folder signed 'the bashful little boy.' '

The outstanding thing about Rita Mootz's favorite Valentine was, in her opinion, "the huge lollipop attached to the card." Huge Valentines remind Marlene Francel of the one her younger sister brought to Marlene's grade school party. "Even the big box that the teacher had for all the cards wasn't big enough for the one my sister had. Later, I couldn't even fit it into my scrapbook."

It was a brother who gave Honore Jones her most remembered card. "He was in Chicago at the time," she says, "and I was thrilled not only because he thought of me, but because of the far-away postmark."

Like Rosalie Sullivan, a few of the girls remember Valentines they gave more than those they received. Rosalie's pride and joy was a homemade message she made for her mother while in first grade. Karen Bakke had a sadder experience. "I was about 6 years old," Karen remembers,

and I lost the card I'd saved and saved for. I cried for days, but Dad finally gave me money for a new one. I gave it to my mother."

"My Most Embarrassing Moment"

Sheila Coogan remembers a number of cards that she bought in the dime store for her grade school friends "They all had 'to my dear teacher' on them, and I was horribly embarrassed."

Among the more recent Valentines that seem special to Clarkites is the box of candy Colleen McGinty received from her older brother when she was a freshman here. I thought he had footh thought he had finally begun appreciating me because I was away from home," says Colleen.

Mary Rose Purtell remembers a Valentine of three years ago, sent to her by a writer whom she met as a pen pal and whose friends. whose friendship she has since acquired. But Marion Bartels' memory. tels' memory goes back only as far as yesterday. "It's the Valentine my many and only as far as yesterday." Valentine my mother sent me," Marion explained, cotton dress."

or so it seems, we were taking semester exams. And Mrs. Dalzell, for one, is an example of the many teachers who discovered new and enlightening facts while reading their students' blue books. Glancing over Jerry Adams' test, the gym teacher did an immediate double-take. Jerry's answer to the question, "How long is time-out called for injury during a game of volleyball?" was "Until the body has been removed."

seemed to be common occurrences around comp time, for some reason or other. Harried seniors changed Marg Casey's name to Marg Cassidy and somehow Mary Rose Purtell became Rose Marie when addressed by a few of her classmates. And only a stroke of luck made Mary Fran O'Byrne realize that she was writing Mary Fran Wrenn's name at the top of her paper.

The Greeks Had a Word for It . . . or at least, that's what Olive McClimon would have had Father Friedman believe. After asking for a definition of theodicy in religion class the other day, Father found out from Olive that "That's a book by Homer."

is currently plaguing Bonnie Haberer. Seems that when Bonnie reported defects in the zone's fan, the repair man took it out to rhythm band. This time, however, fix it. When something went wrong with the spring on the door, they were disguised as second graders. Bonnie watched the man remove that too. A few days ago Pinky Keenan reported a tear in the linoleum, but Bonnie is being wary about reporting it, since she doesn't know "what the girls would say if someone took away the floor.'
